PROFESSIONAL SUMMARY

I'm an enthusiastic Frontend Developer passionate about crafting responsive, user-friendly interfaces with a strong focus on UI/UX design. Currently learning Backend Development using Python to become a full-stack developer who bridges creativity and functionality. I love turning ideas into visually appealing, interactive web experiences that leave an impact. With a continuous drive to learn and improve, I aim to build solutions that combine modern design with clean, efficient code.

WORK EXPERIENCE

Web development Intern, Exaltasoft Solutions ,Pune| Ahmednagar, MH 1 Jan 2025 – 21 Feb 2025 • As a web Developer Intern at Exaltasoft Solutions Ltd, I had the opportunity to work alongside experienced professionals and contribute to various projects. During my internship, I gained hands-on experience in designing, developing, and implementing software solutions using modern technologies. Collaborating with cross-functional teams, I assisted in identifying areas for modification and worked on developing software solutions for web platforms. I actively participated in building web apps, RESTful APIs, and complete architectures for web platforms in an agile environment.

- This internship provided me with valuable exposure to JS frameworks such as Node.js, Express.js for backend development, as well as front-end technologies including HTML, CSS, and Bootstrap. I also had the opportunity to enhance my skills in database management using MySQL and MongoDB. Overall, my internship experience at Exaltasoft Solutions Ltd was instrumental in furthering my understanding of full-stack web development and preparing me for a career in the field.

PROJECT EXPERIENCE :

Car Rental Website, Exaltasoft Solutions ltd:Jan 2025 • Successfully Development of a feature-rich and technologically advanced platform that redefined the car rental experience. By leveraging state-of-the-art technologies and adhering to industry best practices, the website achieved unparalleled performance, scalability, and security. The seamless integration of user-friendly interfaces, dynamic functionality, and robust backend architecture contributed to heightened customer satisfaction, streamlined operations, and accelerated business growth for our client. • Leveraging a comprehensive tech stack including HTML, CSS, Bootstrap, JavaScript . we engineered a cutting-edge web application designed to cater to the diverse needs of both customers and administrators.

Personal Portfolio website , • Implemented 'Personal Portfolio Website' using an React.js and Tailwind css.

Smart AI email Assistant : “Final year project” Adds an “AI Reply” button to generate editable, context-aware email replies. Offers selectable tones (professional, sarcastic, casual). Extracts action items and highlights owners, deadlines, and IDs. Built with a Spring Boot backend and a React frontend.
